Golf score cards can be procured from the secretary of the Alamogordo Golf club.

Claude Yonge, pump inspector for the White Oaks Route, is fixing the Captain water station to withstand winter's chilling blasts.

A slight fire occurred at the City bakery Wednesday evening. The blaze was extinguished before any material damage was done.

Dr. Ida Behrendt of El Paso, the Lady Eye Specialist, is making free examinations of all cases simple or complicated at the Glenmore house.

Dr. Dryden of Winslow, Ariz., former surgeon at that place for the Atlantic & Pacific railway, has succeeded Dr. Gillette as surgeon for the New Mexico Fuel company at Capitán.

Forty-five miners for the New Mexico Fuel company and several for the Linderman Coal company, most of them from Birmingham, Ala., passed through Alamogordo last Friday on their way to Capitán.

Dr. Ida A. Behrendt, representing the El Paso Optical House, will be in Alamogordo one week. Scientific fitting of glasses. If you have trouble with your eyes call on Dr. Behrendt and have them fitted free of charge.

The Alamogordo Lumber company has shipped over a million feet of Lumber since October 1st, besides a large number of carloads of material not rated as lumber. The box factory is about completed and machinery is being put in place.

Mrs. Munroe swore out a warrant this week for the arrest of her husband, Hugh Munroe, charging him with assault and battery. Mr. M. is now out with a \$5,000 bond.

The Jicarilla placers in the White Oaks country will soon be producing. The American Placer company has developed sufficient water for all practical purposes and the hydraulic machine will be operated as soon as some delayed fixtures arrive from the foundry.

The gymnasium appliances for the army arrived this week and was placed in the militia company quarters. The Emmet Guards club is liberally patronized every evening by the young men of the town and a number of enthusiastic gymnasts have developed. Some boxing bouts worth seeing were pulled off this week.

For the past two weeks horse owners have been rounding up their horses at the corral just south of town. The corral has been a busy place, as branding colts and shipping car loads of horses have proceeded. Some cars contained young colts only. All shipments were made via El Paso to eastern points.

Manager A. W. Gifford of the Orion Mining Co. shipped the tenth car of ore shipped from the Dunbar last week netted \$418.24 and that the eleventh car, mostly from the 100-foot level, will be shipped tomorrow; also that sinking in the main shaft for the second level is progressing, showing an increase in quantity and quality of ore as the shaft goes down. Several Alamogordo people are interested in the Orion company.

It is reported that recently 500 sheep were killed by dipping at the Black ranch. The cause given is that the sheep were not watered and were dipped while very thirsty, and as they came through the dip, they drank of it. It is stated that the sheep had been skinned and skins were hanging on the fence for nearly half a mile and the carcasses were piled up in great heaps. The loss is stated as being \$1,200.00.—El Capitán.

Bert Rowland has been appointed postmaster here. He executed the necessary bond Wednesday morning, his securities being Guy Herbert, F. H. Con and Teofilo Sismenos. As soon as the bond is received and approved in Washington, Mr. Rowland's commission will be forwarded to him. He has also a notice to the effect that the postoffice is to be moved from the old location to a point about one-half mile northeast. Notice is also given that the name will be changed from Gray to Capitán, the change to take effect at the time Mr. Rowland takes charge.—El Capitán.

Captain Groves, of the United States Fish commission made a trip over the White Oaks Route last week and left 7,000 fish, mostly rainbow trout to be distributed in the Tularosa, Clondroft, Eagle creeks, Three Rivers and Lake Greig. The car in which the fish are carried, and in which the Captain and his assistants travel, is handsomely fitted up, and has tanks in which the water can be kept at an even temperature and has pump with which to supply the necessary amount of oxygen to the water, and it is thus made to remain fresh and healthful for quite a long time, and frequent changes of water, are not necessary. The fish are beautiful little fellows, about three inches in length, and were raised at the government hatcheries at Neosho, Mo.—El Capitán.

Clondroft Booth At San Antonio. The Clondroft exhibit at the International exposition at San Antonio is attracting more attention than any other feature of the big show, according to the San Antonio Express. Touching the popularity of the place the Express says:

Stocked With Trout. Lake Greig, a beautiful sheet of water, occupying about three acres, located 10 miles west of Tularosa, was stocked with 1,000 rainbow trout last week. Hon. W. S. Shepherd and Superintendent A. S. Greig of the E. P. & N. E. carried the young minnows to the lake.

Pierce-Grant Earl Pierce, son of Alamogordo's merchant prince, was married last Sunday evening to Miss Maude Grant at the residence of Rev. Lord. The groom is 21 years of age and is well known to all residents of Alamogordo as well as Carlsbad, where he lived prior to coming here, and everyone speaks in the highest terms of him. Since coming to Alamogordo he has worked steadily in his father's store and his efforts indicate that he is destined to become successful in mercantile lines at no great future time. Miss Grant is 22 years of age, and has resided in Alamogordo about one year and has made a great many friends here during her residence in the place. The newly married couple have taken up their home in the Grant house.

### TRIBUTE TO THE CANDIDATES.

Rodey and Barnes Received With Red Fire, and Pyrotechnics.

THE GRANDEST OVATION OF ALL.

Both Speeches Were Well Received and Applauded By the Dense Crowd Congregated in Front of the Hotel Alamogordo.

The ovation tendered Bernard S. Rodey, Republican nominee for delegate to congress, and R. P. Barnes, nominee for the legislature along the 14th legislative district, in Alamogordo Saturday evening, was a decided credit to the Republicans of the county and a great tribute to the popularity of the visitors.

The afternoon train from Tularosa brought over seventy visitors to the Magic City, and before night the number of outside people on hand was greatly augmented by the arrival of a number of wagons, buggies, etc., from the mountains and from La Luz.

The candidates dined at the residence of George C. Bryan, and proceeded to the Hotel Alamogordo about 8 o'clock. A band of club of twenty boys bearing torches, roman candles, etc., preceded the candidates and at intervals along the line of march red fire shot its luminous glow heavenward. Chairs were arranged on the hotel steps and lawn for the accommodation of ladies and prominent visitors. On the court house grounds across from the hotel three enormous bonfires were lighted, their bright rays illuminating the whole town, and before the speakers were introduced a perfect fusillade of fire crackers and bombs were exploded, the sharp intonations being interspersed with the hissing and screeching of t sky rockets and roman candles. It is doubtful if the gentlemen have received a more enthusiastic reception in any town in the territory.

Mr. Rodey's witty and eloquent discourse at once captivated the 500 auditors congregated and his efforts converted many to the true doctrine of New Mexico politics. Briefful of mirth, sparkling with wit, scintillating with homely and logical paradoxes, and crowned with a touching pathos, his speech at once carried the conviction to all hearts that here was a man of the people and for the people, who possessed intellect sufficient to reflect credit on New Mexico; had suffered enough to realize the needs of the poor; and was wise enough to avoid the dangerous ruts of intense socialism.—A man who recognized the inalienable rights of both rich and poor and whose efforts would be directed toward the development of the country at the expense of neither class and to the benefit of both.

Mr. Barnes followed Mr. Rodey with a polished, thoughtful and forceful speech which dissected the issues of the present campaign most thoroughly and laid bare the fallacy of Democratic doctrines. He was well received by his audience and was greeted frequently with hearty cheers.

Vote For Lewis. "The Republicans have nominated Col. Lewis of Alamogordo as candidate for the council from Grant, Dona Ana, Otero, Eddy, Chavez and Lincoln counties, and the Democrats nominated J. F. Hinkle, Lincoln, against him. It will be remembered that Col. Hinkle was the author of the school law that took away from the school districts all the gambling license money, and a portion of the school license money. If it had not been for this law Lordsburg would have had the money to build a school house before this time. Col. Hinkle wanted to put all this money into the general school fund, and if he had succeeded in getting his original bill passed Lordsburg would have been without a school a portion of the time. He is a good man for all interested in the Lordsburg school to vote against."—Lordsburg Liberal.

### WELLS OPEN A BIG GOLD MINE.

Bonito Company Developing Sixty-Three Acres of Rich Ground On the White Oaks Belt.

DISTRICT BOUND TO BE A WINNER.

Thatcher Confident That the Bonito Company Will Have a Shipper and Dividend Payer When the Tunnel is Completed.

N. J. Thatcher, general manager of the Bonito Gold Mining company, was in Alamogordo this week from the Bonito district where he is developing the group of claims owned by the company.

Colonel Thatcher is more than ever pleased with the section in which he is operating and he is of the opinion that a better and richer district than Colorado's famous Cripple Creek will be opened there soon. The general surface indications and heavy mineralization of the whole country points to great deposits in the porphyry and he is confident that his concern is bound to open some of them.

The Bonito company is operating 63 acres of ground in the heart of the gold belt, the development work consisting of a tunnel at the intersection of the Tip Top and Admiral Schley claims. The work is progressing nicely and it is the intention of the Colonel to push the tunnel in 600 feet, which will give a depth of 400 feet and will tap a seven foot vein of mineral which gives assays of \$37 per ton from one of the shallow development shafts. Three known smaller veins and perhaps as many blind veins will be cut during the course of the work, but no attempt will be made to extract ore from them, for the reason that the work will be concentrated toward reaching the large ore body, which goal will at once make a shipping mine and pay dividends on the stock.

The tunnel is being run through fine mineralized porphyry quartz, which assays \$3 in gold throughout. The Bonito properties are located on the continuation of the rich gold belt which has shown up such producers as the American, Helen Ray, Vera Cruz and the big mines of the White Oaks district, and from the geological peculiarities of the country, Colonel Thatcher believes that the Bonito district is another center of eruption and that the mineral deposition will there be found more permanent, more regular and in greater force than elsewhere on the belt, which means that mining can be prosecuted there at small expense, the certainty of large returns and freedom from danger of losing the veins.

The company has set aside 20,000 shares of its treasury stock, to be sold for furthering immediate development and for prosecuting the tunnel work. The capitalization of the concern is 600,000 shares and the stock is now selling at 10 cents per share. A great many Alamogordo and El Paso people are buying blocks of the stock confident that Colonel Thatcher's predictions will come true and that in less than a year the stock will be worth \$1 per share and be earning regular dividends.

It is refreshing in this age of company organization to find a company with the reliability and honesty of purpose shown by the Bonito company. The names of the officers of the company O. M. Potter, G. C. Scipio, J. A. Eddy, N. J. Thatcher and R. White, secretary, is a guarantee that the funds subscribed for stock will be spent in developing and Colonel Thatcher's varied mining experience warrants the assertion that the money will be expended to the best advantage.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by W. E. Warren & Co.

When you cannot sleep for coughing, it is hardly necessary that any one should tell you that you need a few doses of Chamberlain's Cough Remedy to allay the irritation of the throat, and make sleep possible. It is good. Try it. For sale by W. E. Warren & Co.

New Tailor Shop. McGarry & Reiss have fitted up an excellent tailoring establishment next to the First National Bank, on Tenth street, and are prepared to do artistic work in their line. They have a fine assortment of samples for spring and summer suitings, and the prices are as low as the largest city tailoring houses.

Send your watch and jewelry work to F. M. Rhomburg, practical watchmaker and jeweler. All work guaranteed strictly first-class. Alamogordo, N. M.
